**A FORWARD MOVIE**—The Mist is reliably informed that the Columbia County Bank will soon increase its capital stock (paid up) to \$25,000 and that application will then be made for a charter as a national bank, giving St. Helens the first national bank in Columbia County.

For right prices all the time, and on everything, go to James Muckle & Son.

**CUTTING ALFALFA**—Callin Brothers, of Seaview Island, have been cutting their first crop of alfalfa during the past week, and it will go about three tons to the acre. At the present price of hay the early alfalfa has a peculiar value, especially as it is far superior to a milk producer to the hay kept through the winter. They will cut two more crops this year and the entire yield will come close to ten tons per acre with a money value of over \$200 per acre. After the third crop there will be rich grazing both fall and winter. Liberal samples of all three crops will be shown in Columbia County's exhibit at the State Fair, and we are especially anxious to secure alfalfa samples from other parts of the county.

Everything for everybody. James Muckle & Son.

Mr. and Mrs. N. A. Perry returned last Thursday from attending the National Grocers' Convention at Springfield, Illinois, and from a pretty general trip through the Middle and Eastern States. At Springfield he met Wm. O'Connell, a subscriber to the Mist, who is interested in a tract of timber land in the Nehalem Valley. He could not find a Portland dail but the Mist was acceptable as a letter from home. Mr. Perry says large acres of the Eastern country present a desolate appearance on account of the severe storms. Peaceful and fertile Oregon looks good to him.

**300 ACRE RANCH TO LEASE**—First class dairy ranch. Inquire at the Mist office.

**HOUSEHOLD FURNITURE FOR SALE**—Enough to furnish a five room house. A bargain. Inquire of H.E. Bennett, Miles' cottage, opposite H.P. Watkins.

When you pay out your money at Muckle's you get full value and no short weight or poor quality. Dollar for dollar always.

The City Shoeing Shop has been enlarged twenty feet in length and is now running two fires.

**MAKING GOOD PROGRESS**—Work upon the new water system will be completed well within the limit set by the terms of the contract. Out on Salmonberry Creek, which is the main source of supply, a concrete dam eight feet in height has been built and a much larger dam follows the present one from which our supply is now obtained, it being sixteen feet in height. About four miles of ditch has been dug and there are three carloads of pipe on hand. Before the summer is over we will have a water supply not excelled by any as to quality and sufficient for the needs of a city twenty times as large as St. Helens and Houlton combined. Next year all who desire to do so can irrigate their lawns and gardens.

Trunks and suit cases, all prices and sizes. James Muckle & Son.

**BIG CARGO CARRIER CLEARS**—The steamer Stratford will clear to day or tomorrow for Australian ports, taking two million feet of lumber from the St. Helens mill and the balance of her cargo 1,500,000 feet from California. She is the largest vessel yet loaded here.

**ANOTHER VICTORY**—The game last Sunday between St. Helens and the Brooklyn Grays, resulted in the usual victory for St. Helens by a score of 5 to 2. Brakke in the box appeared to be in good form and gave the visitors but one hit. Errors were quite numerous on both sides. Owing to the absence of the scorer no complete record of the game was kept.

Florsheim shoes for men. The shoe of quality. At James Muckle & Son's.

The man who said: "Who at all this purse steals trash?" must have been after one of those wise fellows who puts his money in the Columbia County Bank, where it earns 4 per cent on time Certificates of Deposit.

Get correct shapes and real fits in shoes. The shoe that fits the foot and the pocketbook at James Muckle & Son.

**LEMONS FOR THE FAIR**—Mr. and Mrs. W. A. Harris have contributed three large lemons, together with a portion of the tree, showing green fruit and blossoms, to Columbia County's exhibit at the State Fair. The lemons were grown by Mr. and Mrs. Harris on their place in St. Helens.

No matter how little you think you are getting, no matter how LITTLE you ARE getting. Save some of it by putting it in the good, strong Columbia County Bank; it will grow there.

James Jesse and Constable Sutton, of Rainier, were in this city Wednesday, bringing with them a man that confessed to killing a few people at Chehalis. He also stated that down in Rainier town they attempted to hitch him up with electric wires. To hear Jesse tell the story the man was making a nuisance of himself in the Rainier Grand Hotel and when arrested and placed in Al Lee's ice chest, which is now used as a calaboose, he immediately proceeded to wreck the electric lighting system of that institution. He was a husky young fellow and it took three good men to handle him. Drs. Cliff and Ross decided that it was a case of tremens, and, as he hails from Chehalis the authorities there will be communicated with. Whisky, you know, and the county pays the cost.

Begin right now to prove to yourself that you can start a savings account; prove to others that you will. Then watch results. It will prove most pleasant. The Columbia County Bank pays 4 per cent on Time Certificates of Deposit.

Mr. and Mrs. W. B. Dillard and Mrs. Jacob George, of this city, attended the Conyers-Smith wedding at Clatskanie last Tuesday. They report that it was one of the prettiest affairs of the kind they ever attended, the attendance being quite large including many friends from a distance. The groom, who is a business man of Kansas City, was accompanied on his trip across the continent by his mother and brother and his mother's sister. After the wedding the bridal party started on a trip to Honolulu. The bride is a native of Columbia County and is an exceptionally talented lady. The Mist joins her many friends in heartiest good wishes.

See that new line of straw hats. The real goods. James Muckle & Son.

Good new house and lot with outbuildings for sale. Located just south of the Crouse place, on Milton Creek. House has six rooms. Good spring. For further information apply at Mist Office.

**A COMPLICATED CASE**—Mrs. Dodge bought a cow—as she alleges—of Mrs. Watson, for \$40. She paid \$10 cash and afterwards offered the balance of \$30, which was refused and the claim made that the price agreed on was \$50. This she refused to pay and the Watsons took the cow and sold it to Mrs. Richardson for \$45, retaining also the \$10 paid by Mrs. Dodge. Then Mrs. Dodge put up the cow and refused to deliver it to Mrs. Richardson, who feels that she is entitled to something for her money and therefore has instituted a replevin action and thereby recovered possession of the cow. Previously to doing this, however, Mr. Richardson offered to pay Mrs. Dodge the \$10 she had given the Watsons provided she would receipt for the money, which she refused to do.

Ladies' hats. James Muckle & Son.

Mr. Charles White, of McMinnville, spent Sunday with his brother, Sheriff White.

The Gem Restaurant is now open under new management and is ready to serve the public with everything the market affords. Your patronage is solicited.

As an indication of the growth of this community note the fact that on the first day of July the post office at St. Helens will be advanced to the third class. Do you know that if you take a circle of one and one half miles from the court house you will find a larger population than anywhere else in the same area in Columbia County.

The Ladies of the Guild will serve tea at the home of Mrs. Day on Tuesday afternoon, June 14th; Mrs. Briggs of Yac-ton being hostess.

Good house row and float for sale very cheap. Part cash. Inquire at this office.

**REGISTRATION BOOKS OPEN**—The books for Columbia County are now open for the registration of voters. Books will remain open until September 14 and will be reopened September 29. It is a good idea to come early and avoid the rush.

Good & Smith have opened the Gem Restaurant and will conduct a first class eating house. Drop in and give them a trial.

The Gem Restaurant serves everything the market affords, and you cannot do better than to patronize it when you are hungry.

**FOR A BRASS BAND**—Mr. M. E. Miller was in Portland on business Monday, and while there secured a set of instruments for a band. Several of our citizens have expressed a desire for such an organization, and that it would be of great benefit to the city there is no doubt. With the completion of the new water system the unsightly tank on the hill should be torn down and a neat bandstand take its place. The lot owned by the city could be converted into a beautiful little park where on warm evenings people could meet and enjoy free band concerts and the beautiful scenery. One sure way to make St. Helens grow is to do all that is possible to make it a pleasant place to reside.

Mr. W. C. Wilkes, Assistant General Freight and Passenger Agent of the A. & C. R. R., was a St. Helens visitor last Tuesday, looking after the interests of his company. The A. & C. has shown a commendable desire to meet the wishes of the people as nearly as possible, and at present they are giving better service than ever before.

Thomas Goodrich, of Goodrich & Goodrich, Portland architect, visited our city Tuesday last. He will plan the new building Mr. Charles Muckle is to donate to the Episcopalians and probably will submit plans for the new city hall. As it has practically been decided to build a city hall, work should begin as soon as possible.

The Portland Rose Show has attracted many visitors from Columbia County during the week and all who attended were extended the freedom of the city—pure air and pure water. Whatever else they ordered they paid for at the regular price. It cost no more to look at the pageant than to inspect the show windows in the big department stores, and the object is the same—to induce you to buy. The show is a great one and well worth the money, but why the boast of hospitality?

**FOR SALE**—Three choice lots in St. Helens. Choice bearing fruit trees and other small fruits, a new 9-room house, new woodshed, barn, 3 blocks from Columbia River. \$1700. Half down, balance on time. A bargain.

The St. Louis Prophet's June Forecast

Der Kaiser of dis Fatherland Und Roosevelt all dings command— Ve two and Gott, you understand— Myself—and Tet.

It used to be just Gott und me, But Tet he comes to make it free, Und Gott don't count much latterly— Yust me—and Tet.

Yust me and Tet mit power divine To keep de rest of dem in line— In bease und var to give der sign— Und sometimes—Gott.

Myself and Tet der same as peas— Der same mit Gott, if you shall please— Der same in war, der same in bease— Myself—and Tet.

Der eastern hemisphere for me— For Tet der one across der sea— For Gott der sky, ve vill agree— Myself—and Tet.

A health to me—a health to Tet— Und one for Gott already yet— Van Holy Trinity, you bet— Ve two—and Gott.

Besides a day in June, my dears, all other days are nothing, for then it is one's eager ears may hear the soft wind sighing by forest ways, and perfect days of brightly flowered meads and joyous song are come along just like a string of beads.

A poet one time asked us what is peradventure like it, and died well knowing we had not the wit required to strike it. He simply tried, before he died, to give us one so bid we work at it till time shall quit, and by the gods he did.

The breath of summertime shall rouse the festive calf to action, and what with unrestrained carouse, he'll do for an attraction. He'll buck and dance around the manse in no great show of grace, and wave his tail with brave assail in Mr. Halley's face.

The heavy-droning bumble-bee shall kiss the blushing clover, and skies as blue as any sea shall bound the planet over. The graduate shall right the state from Maine across to Yuma, and the groom in stress shall S. O. S. his dad for more mazuma.

Of June it may be said, indeed, It is a great invention, And one we rather badly need To somewhat ease the tension.

If we're a fish, to leap and wish, Or hearken Nature's call, We'll do it soon or late in June, Or not do it at all.

The comet, having hung about until we were converted, shall gradually peter out and leave us quite deserted. We must recall we are not all the world it sets aright, and bid it speed where there is need to cause another fright.

It is a sort of cop on a beat of great dimensions, and most by then be getting on to scatter its attentions. They have John D's and Morgan P's on many a hill, and were it not for H's hot these few would grab it all.

A Guggenheim would castrate Mars, a Rockefeller Venus, and Morgans on the other stars would utterly demean us. We'd even be, unhappily, quite naked where we sit if it were not that Halley got around and saw to it.

It will not all at once appear how far the comet served us, or just to what extent the fear prevailed while it observed us; but safe to say that for a day or thereabouts somewhere the trusts won't find it half so hard to tell our things from theirs.

However, and he as it may, The comet will outpace us, And Theodorus on a day Will happily embrace us.

The hemisphere will tip, we fear, Beneath his mighty track, But even to the stars will Rejoice to see him back.

WELLINGTON

PORTLAND ENTERTAINS THOUSANDS OF FESTIVAL VISITORS.

Copy of Order to Show Cause.

Portland, Ore., June 7 (Special)—Portland is host this week for thousands of visitors from all parts of the country who are in attendance at the annual Rose Festival. Never before did Portland look so handsome, the extensive decorations put up generally about the city being unusually elaborate. The attendance is greater than at any former festival and the parades are outdoing anything previously attempted.

Business cares are generally being relegated during the week. The people of the city are devoting their attention to entertaining out-of-town visitors, and are participating in the week's festivities to the fullest extent. As usual, the parades and the competitive rose show are the big events, attracting the most attention. Many people of the Northwest visit Portland during the Rose Festival if at no other time during the year and to these, the tremendous growth of the city during the past year is more impressive, even than the festival pageants. The city's progress merely reflects the general prosperity of the whole Pacific Northwest, and is increasing in population and wealth because the same is true of the tributary country.

Theoretically surrounding the future of the annual fair and livestock show on the Country Club grounds near this city was dispelled during the week when stockholders decided to continue the organization. The usual exposition will be held this fall. The Portland Fair & Livestock Association has not yet become a money maker, and some doubted that the annual show and racing meet could be continued. A final meeting of stockholders was held to consider this question, and it was decided to not allow the project to lapse. Big plans are being made for the coming show this fall, and it is the intention of those behind the affair to make it as big an attraction for that season of the year as the Rose Festival is in the spring. It will certainly be a great benefit for the whole Northwest to have the livestock show continued annually.

New through Northern Pacific service between Portland and Chicago has been established by the North Bank road, the new train having a running time of 72 hours, the same as the North Coast Limited. A readjustment of the time schedules on the Northern Pacific line between Portland and Seattle, allowing for the joint use of a part of the track by the Oregon & Washington, the new Harriman line will be made within a few days.

The O. R. & N. Co. will run a farming demonstration train through southeastern Washington, starting from Colfax, June 20, and ending the trip at Pomeroy, on June 25. During the journey 22 stops of about two hours each will be made. Professors from the staff of the State College at Pullman will accompany the train and deliver lectures on improved farming methods. Residents of the sections of Washington to be visited are much interested in the coming trip.

An Oregon shingle mill in Tillamook county worked 33 days on one mammoth cedar log, cutting from it 141,000 shingles. This is almost unbelievable to people not familiar with the Pacific Coast, where big trees and vast timber resources are accepted quite as a matter of course.
